EVoline® range structured cable management innovations

An attractive example for this is the **EVoline® Cable Guide**.

This module for the EVoline® Port offers an intelligent cable guiding solution. Any cable of any length can be installed as needed.

EVoline® Cable Guide allows easy to extract and retract cables. This provides the user a variable and adaptable approach to connect Laptops, Tablet PC's or other devices in conference facilities and rooms.

The three flexible guides accept almost any cable. The cables can be released and swapped without the aid of any tools, allowing a great deal of user flexibility.
